Upcoming TxDOT Projects in Gillespie County

FREDERICKSBURG, TX - The Texas Department of Transportation (TxDOT) has several projects scheduled to take place in Gillespie County over the next few years to restore and maintain its roadways. Two of these projects will improve the safety of U.S. Highway 290 East.

According to TxDOT representatives, U.S. Highway 290 East is to be widened and a continuous left turn lane installed from just east of Old San Antonio Road to approximately two miles east of RM 1376, where the existing left turn lane begins near Wildseed Farms. The estimated let date for this project is April 2022. The let date is the approximate timeframe the bid and construction contract execution of the project is planned to take place.

Project plans also include U.S. Highway 290 East to be widened and a continuous left turn lane installed from Jenschke Lane to Cemetery Road in Stonewall where an existing left turn lane begins. The estimated let date for this project is June 2023.

The completion of these projects would create a continuous left turn lane from Fredericksburg to Stonewall and improve overall safety conditions of the roadway.

Other upcoming projects include the following:

- Restoration of U.S. Highway 87 North from Barons Creek to Old Mason Road (Estimated Let Date - October 2023)
- Mill and overlay of U.S. Highway 87 from U.S. Highway 290 East to U.S. Highway 290 West (Main Street from Washington to the 'Y') (Estimated Let Date - November 2023)
- Restoration of U.S. Highway 87 North from Barons Creek to RM 648 (Estimated Let Date - February 2024)
